2 Channels

5 Channels

Product Code	Corner Angle	Width	Channels Dimensions	Pack Size
	Deg			
X08-AFXX/2N25	30	245	25 x 30 x 2 channels	3
X08-AFXX/5N33	30	445	33 x 28 x 5 channels	3

- 1** Remove cable guard from box by lifting side edges only.

Do not hold cover lid to lift cable guard.

- 2** Install the Interlock pins to one part(2 channels) and assemble cable guard together, lower down one side and push interlock pads to fit.

- 3** To disassemble cable guard, lift the long side and completely disconnect interlock pad.

Do not lift cable guard from the short side, this could damage the interlock pads.

- 4** To move cable guard, always hold on the body.

Do not use cover lid to lift cable guard, this could damage the hinges.

This Installation Guide was designed with great care and proper testing before publication to ensure the product works perfectly with TriCab flexible cables. However, when using this product with different cables other than TriCab flexible cables, it is sole responsibility of user to make their own tests, calculations to determine the suitability. TriCab is not liable for any errors, omissions, damages etc. due to improper use of this product, included but not limited to improper installation deviating from this Guide, safety and warning rules violation, using unsuitable cable other than TriCab flexible cable.
